

Wednesday, June 4, 2025

MP09 Eventlocation, Liebenauer Tangente 4, 8041 Graz

17:00

Arrival & Registration

17:30

Get on board: Let's transit from 2024 closing remarks to the new topics of 2025!

Flying Dinner @ Experience Corner

18:00

Provocative Talk

Shall we design for safety or emotions?

Hannes Robier, World Usability Congress

How do companies and research organizations deal with fluid interactions? Let's touch & feel!

AVL, INFINEON, MAGNA, TU Graz, Joanneum Research, VIRTUAL VEHICLE

State your vision and goals!

Individual perspectives as spontaneous pitches

Thursday, June 5, 2025

MP09 Eventlocation, Liebenauer Tangente 4, 8041 Graz

08:45

Registration

09:00

Expert View

EuroNCAP and the new HMI safety assessment

Adriano Palao, EuroNCAP

09:20

Expert Intro

Driver Engagement and the consequences for vehicle safety, HMI development and validation

Arno Eichberger, TU Graz

09:30

Workshop

How to deal with optimized HMI designs and how to assess driver distraction in vehicle development?

TU Graz

10:30

Coffee Break @ Experience Corner

How do companies and research organizations deal with fluid interactions? Let's touch & feel!

AVL, INFINEON, MAGNA, TU Graz, Joanneum Research, VIRTUAL VEHICLE

10:50

Expert Intro

Enhancing HMI development through innovative engineering tools for benchmarking and validation

Michael Lechner, MAGNA

11:00

Workshop

What innovative feature should an engineering tool provide to improve HMI development?

Vera Wild-Eggerstedt, MAGNA

12:00

Lunch Break @ Experience Corner

How do companies and research organizations deal with fluid interactions? Let's touch & feel!

*AVL, INFINEON, MAGNA, TU Graz,
Joanneum Research, VIRTUAL VEHICLE*

12:50

Expert Intros

Automated On-Demand Public Transport - Optimization strategies for shuttle services

Alexander Mirnig, AIT

VR gamification - Early diagnosis of cognitive impairment with VR gamification

Lucas Paletta, Joanneum Research

Human Oversight - From EU AI Act requirement to effective in-vehicle interactions

Nikolai Ebinger, VIRTUAL VEHICLE

13:20

Workshops

On-Demand Mobility - What challenges for end-user and implementation?

AIT

Digital health and care - Is gamification the right approach?

Joanneum Research

Human Oversight - What are its implications for adaptive systems?

VIRTUAL VEHICLE

14:30

Coffee Break @ Experience Corner

How do companies and research organizations deal with fluid interactions? Let's touch & feel!

*AVL, INFINEON, MAGNA, TU Graz,
Joanneum Research, VIRTUAL VEHICLE*

15:00

Conclusions & Outlook

What does the Fluid-HSI community need for a bright future?

all Experts & Participants

15:30
